Fat Macy's Catering – Introduction

Fat Macy's Catering

Our social enterprise catering company helps people experiencing homelessness to move on from temporary accommodation.

We do this through culinary and hospitality training combined with holistic 1:1 support around wellbeing, employment and moving into their own home.

Moving from hostels to their own home

A percentage of our profits go into a housing deposit fund. At the end of our work experience programme, trainees can apply for grants to cover a deposit to move into rented accommodation and smaller essential items.

Every meal gets someone closer to secure housing and a stable life.

Locally-sourced sustainable food

Inspired by Middle Eastern cuisine, our menus focus on personality, taste, seasonal ingredients.

We use the very best of British produce, sourced from suppliers who share our values and respect for the environment.

Since 2016, we've worked with Coutts, L'Oréal, UBS and Sadlers Wells Theatre, plus hundreds of private clients.

We offer our seasonal menu in various styles – buffet, family-style, plated and small plates.

To get you inspired, we've created sample menus to showcase af the Lebanese-inspired dishes you can choose from.

Fat Macy's Catering

“From prompt communication to timely delivery and excellent food, from start to finish our whole experience with Fat Macy's was great. The food itself was delicious, fantastic flavours, fresh, well presented and generous – we had positive comments across the board and the ethos of the company is one we were keen to support.”
